

How We Help Those In Need

Since its formation in 1992, Aquabox has distributed more than 110,000 aid boxes and water filters to countries all over the world suffering from natural or man-made disasters, helping hundreds of thousands of people in times of crisis.

The aid provided by Aquabox has delivered more than 10 billion litres of safe drinking water in situations where available water is contaminated with life-threatening diseases.

Our Water Filters

Our innovative AquaFilter technology produces safe and clean drinking water instantly and reliably without the need for chemicals.

The AquaFilter Family and Community Units are based on sub-micron filters which are impenetrable to bacteria and most viruses, including cholera and polio.

AquaFilter Family Unit

Designed for use by individuals or a family, the AquaFilter Family unit can deliver 1 litre per minute and half a million litres of clean drinking water over its working life.

AquaFilter Community Unit

Designed for use in community amenities, such as medical centres or schools, the AquaFilter Community unit can deliver 6 litres per minute and over 1 million litres of clean drinking water over its working life.

What Do We Send

Aqua12 Boxes

12 Family Filters in a box

Humanitarian Aid Boxes

Each Aquabox contains:

- ✓ Family Water Filter
- ✓ Shelter Materials & Tools
- ✓ Cooking Utensils
- ✓ Personal Hygiene Items
- ✓ Educational Items & Toys

How You Can Help

Natural disasters happen all too often and when they do people are in desperate need of safe drinking water and humanitarian help.

We rely entirely on donations and the fundraising activities of our supporters to fund our work and purchase the items which we supply in the aid boxes.

Why not sponsor an Aquabox or an AquaFilter Family or Community Unit?

£25

£150

£250

The amounts shown indicate the cost to Aquabox of each product we send out.
